QA Engineer (m/f/x)

As part of our agile team you will be responsible for building our test environments, test processes and tools. Your goal is to build a solid test environment including a useful test automation suite for our desktop and mobile apps. This happens in alignment with the team.

You have a good understanding of the principles of software testing (potentially some ISTQB or similar certification), have been building test environments for desktop and mobile applications before, are willing to define, execute and document tests and are familiar with testing tools?

A motivated team within a small and flexible organisation is waiting for you. We have a warmly way to work together and a drive to get things done. Beside that we enjoy a vivid communication with our colleagues in other departments.

UNICOPE GmbH

UNICOPE is an independent and modern-thinking company that focuses entirely on the integration of VoIP telephone systems into IT environments. Our core competencies range from cloud telephone systems to all unified messaging services such as fax, voicemail and SMS to complex IVR solutions.

You have been working in agile (SCRUM) environments, speak German and English (LEVEL B2 or higher), you are self-organised and have the passion to work partially in home office? You are willing to spend a day/week in Vienna? Great - let's get in contact.

Your Skills

MUST

- Good understanding of the principles of software testing
- Smoke-tests, edge- & corner-cases, load tests, stress tests

- Ideally ISTQB or similar certification
- Fond experience in defining, executing and documenting testcases on different levels (Gherkin is an advantage)
- Worked in agile - preferable Scrum - environments
- Familiar with some testing tools (i.e. TestRail, Zephyr, Tosca ...)
- Fluent English (B2 or higher), German CEFR level B2 or higher

NICE-TO-HAVE

- Familiar with Jira/Confluence
- Experience in test automation of desktop applications (i.e. Ranorex)
- Experience in test automation of mobile apps (i.e. Katalon, appium ...)
- administration of virtual machines

SOCIAL SKILLS

- strong collaborator and team player
- curious and open minded for self-learning
- problem-solving skills and critical thinking
- self-awareness (know your strengths and weaknesses)
- interpersonal skills (listening, caring, intrinsic motivation, responsibility ...)
- emotional intelligence (i.e. stay cool in stress situations)

WHAT MAKES US SPECIAL

- Work-life balance and support for career development
- Homeoffice (max. 4 days a week)
- Individual social benefits
- A modern workplace in a young and dynamic team
- A minimum salary on a full-time basis (38.5 h/week) of € 3.500, - p.m. gross and more depending on individual experience and qualification.
